For the first time, Tom Tom Foundation is Partnering with Wild Virginia for the Wild & Scenic Film Fest

The festival is close, and we can almost taste it! Wild Virginia is excited to announce a new partnership with a large community entity here in Charlottesville. The Tom Tom Foundation is a nonprofit organization that celebrates entrepreneurs, civic leaders, and creators who are shaping cities and communities across the nation.

This screening at Vinegar Hill Theater on April 11th will be a special sneak peek of the Wild and Scenic Film Festival! Over three nights this spring, Wild Virginia will bring inspiring environmental films to Charlottesville and Staunton. These award-winning films highlight the pressures on our planet and the ways we can all help to make the world a better place. Teaming up with the Tom Tom Festival gives you a special chance to see what all the excitement is about. Grab a drink and a snack and settle in to get inspired.

"At this one-hour preview show, we'll be highlighting ways to make a better world by learning from and working together with nature," says Executive Director, Misty Boos.

Biomimicry will highlight a vision for creating a long-term, sustainable world, and *The Art of Fog Catching* will compliment it with how locals in the Sahara Desert are adapting to the effects of drought and climate change. Lightening the mood is *March of the Newts*, a film following one of the forest's funkiest creatures and showing how you can protect this sensitive species.

For only \$8, enjoy this pre-screening of award-winning films and learn more about this great festival.

There is a limited seat capacity, so grab your tickets at the [Tom Tom Festival's website](#).

Wild Virginia is a 501(c)(3) non-profit organization that is protecting and connecting your favorite wild places. **We educate** citizens, landowners, and other stakeholders about threats to our forests through hikes, outings and events. **We advocate** for the connectivity and integrity of Virginia's forests and waters. **We influence** decision makers by mobilizing citizens.
